"YOU CAPTURED
SOME AMAZING
MEMORIES."

WELCOME

HELLO, I'M MARK KIFF

Your wedding isn't just a day, it's a story worth reliving. I'm a North Devon wedding videographer creating cinematic, natural films that capture every real moment, emotion, and detail as it truly unfolds.

At Coastal Imaging Weddings, we focus on authentic storytelling, documenting everything from quiet preparations to your first dance with care and creativity.

We work discreetly, blending in with your guests to capture genuine emotions, and take time beforehand to understand your vision so your film reflects your unique story. Whether you're getting married in North Devon or further afield, our goal is to create a timeless film you'll cherish for years to come.

"WE COULDN'T RECOMMEND HIM ENOUGH"

EMOTION IS EVERYTHING

WHY VIDEOGRAPHY

Coastal Imaging Weddings —

Timeless Wedding Films That Capture the Moments Photos Cannot.

“ —

Wedding videos are an incredibly important part of preserving your day just as essential as photography. While photos capture beautiful still moments, film brings them to life. It allows you to hear the laughter, the vows, the speeches, and all those little in-between moments that might otherwise fade with time.

A wedding film lets you relive not just how your day looked, but how it felt.

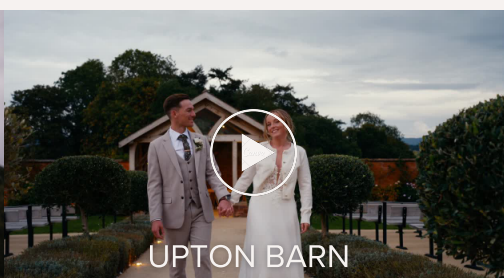

Over the years, your video becomes something truly timeless, something you can return to again and again, and share with family, friends, and even future generations. It's one of the few ways to fully experience those memories long after the day has passed.

To ensure your story is captured at the highest quality, we use professional-grade cameras and audio equipment designed for cinematic filmmaking. From crisp visuals to clear, immersive sound, every detail is recorded with care so your wedding film feels just as real and emotional years down the line as it did on the day itself.

YOUR WEDDING FILM

AERIAL FOOTAGE

Aerial footage plays a powerful role in telling the full story of your wedding day. Using cinematic drone shots, we capture breathtaking views of your venue and surroundings, adding scale, atmosphere, and a real sense of place to your film. These sweeping perspectives help set the scene and beautifully connect each moment, giving your wedding film a more immersive, cinematic feel from start to finish.

MUSIC LICENSING

We're unable to use your first dance song in your film due to copyright restrictions. However, we carefully select music that complements the mood and feel of your wedding, ensuring your film still reflects your day beautifully.

COLOUR GRADING

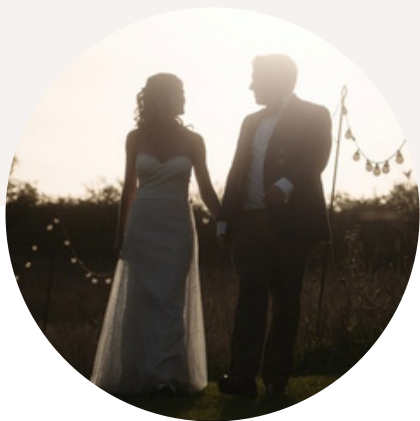

Colour grading is a big part of what gives your wedding film its cinematic look and emotional feel. Each shot is carefully refined in post-production to enhance tones, balance light, and create a consistent style throughout your film.

It's a detailed, time-intensive process, but it's what transforms your footage into a polished, professional film you'll love watching again and again.

"MORE THAN WE COULD OF WISHED FOR"

OUR JOURNEY TOGETHER

Coastal Imaging approach every couple with a level of care and attention to detail as if you were my first and only priority.

THE PERFECT MATCH

Let's discuss your wedding day and video wish-list and see if we're a good fit for each other. Once you've decided on which service you'd like to book, I'll send you your contract. Once your booking fee is received, your date is booked!

THE LEAD UP TO YOUR DAY

We stay in touch every step of the way via FaceTime, calls, or online questionnaires to capture all the details that make your wedding unique. If you've booked for interviews, we'll also meet in person before your day.

ON THE DAY

We use a discreet approach, whether shooting alone or with a second shooter. We work alongside the photographer to be a cohesive, calm team to both provide input on the best shots.

DIGITAL DELIVERY

Your wedding film will be ready within 3 to 5 months, depending on workload, and will be delivered digitally for easy viewing and sharing.
